1730-1900	Apéro	

We would like to invite you to the second **Innovation Roundtable** organized by CTI Invest and kindly hosted by Zühlke Ventures.

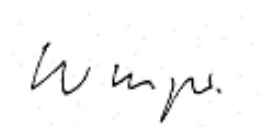

The importance of MedTech for Switzerland is widely acknowledged. Despite the global economic turmoil in recent history, MedTech still manages to grow.

This growth, however, cannot be taken for granted in the future. Driven by various factors there are signs that MedTech is becoming a maturing industry. Which are strategies to deal intensifying competition, adverse currency effects, and increased pressure on healthcare spending? What can we learn from the pharmaceutical industry?

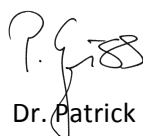

In this setting, discuss with us the business-, cooperation-, and investment opportunities in this important space of Medical Technology.

We are looking forward to your participation.

Kind regards

Dr. Christian Wenger
Chairman CTI Invest

Dr. Patrick Griss
Executive Partner Zühlke Ventures
